Secretary General's Statement

I am pleased to present the Secretariat's financial statements and independent auditors' report for the year ended 31 December 2022.

Following the Forum Officials Committee (FOC) approval in 2018 to move reporting standards, 2022 is the second year of adopting the International Public Sector Accounting Standards (IPSAS) from the previous International Financial Reporting Standards (IFRS). IPSAS is a set of accounting standards designed to reflect the public sector nature of entities like the Pacific Islands Forum Secretariat (the Secretariat). IPSAS is based on IFRS and therefore the move does not give rise to any major changes to accounting policies however in some areas there are potentially significant differences, and these are explained further in the notes to the financial statements commencing from page 8 to 48.

During the year, we expended FJD20.9m from General Fund and FJD20.9m from Trust Fund, while our total cash and investment holdings at year end amounted to FJD37.7m.

I remain conscious of the responsibility entrusted to the Secretariat by Members of the Pacific Islands Forum, and by our development partners, to manage such a substantial level of funding. I therefore reaffirm our commitment to ensure that these financial statements provide an accountable and transparent summary of the Secretariat's financial activities for the 2022 financial year.

In my opinion:

- (a) the accompanying statement of financial performance is drawn up so as to give a true and fair view of the results of the Secretariat for the year ended 31 December 2022;
- (b) the accompanying statement of financial position is drawn up so as to give a true and fair view of the state of the Secretariat's affairs as at 31 December 2022;
- (c) the accompanying statement of changes in funds is drawn up so as to give a true and fair view of the movement in funds of the Secretariat for the year ended 31 December 2022; and
- (d) the accompanying statement of cash flows is drawn up so as to give a true and fair view of the cash flows of the Secretariat for the year ended 31 December 2022.
- (e) the accompanying statement of comparison for budget and actual amounts is drawn up so as to give a true and fair view of the performance of the Secretariat for the year ended 31 December 2022.

Secretary General's Statement (continued)

With a disciplined approach to its budget, workplan, and targeted activities for the next three years, the Secretariat believes it has sufficient financial resources at this time to continue its operations for the foreseeable future. The Secretariat will continue to assess progress of recovery as we navigate ourselves in a post-pandemic world and adjust to the various challenges and disruptions to our region that may impact on the Secretariat's work programme into the future years.

Dated at Suva this 25th day of April 2023.

Henry Puna

Secretary General

Independent Auditor's Report

To the Members of Pacific Islands Forum Secretariat

Report on the audit of the financial statements

Opinion

We have audited the accompanying financial statements of Pacific Islands Forum Secretariat (the 'Secretariat'), which comprise the statement of financial position as at 31 December 2022, and the statement of financial performance, statement of changes in funds, statement of cash flows and statement of comparison of budget and actual amounts for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Secretariat as at 31 December 2022, and the statement of financial performance, statement of changes in funds, statement of cash flows and statement of comparison of budget and actual amounts for the year then ended in accordance with International Public Sector Accounting Standards (IPSAS).

Emphasis of matter - Basis of Accounting

We draw attention to note 2 to the financial statements, which describes the Secretariat's second year transition into the IPSAS financial reporting framework. The Secretariat has applied certain exemptions permitted under IPSAS 33 "First time Adoption of Accrual Basis IPSASs", as part of its second-year transition into the IPSAS financial reporting framework. The exemptions applied impact the recognition of assets, liabilities, revenues and expenses. In our judgement, this issue is fundamental to the users' understanding of the financial statements, and the financial position and performance of the Secretariat. Our opinion is not modified in respect of this matter.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Secretariat in accordance with the ethical requirements of the International Ethics Standards Board for Accountant's Code of Ethics for Professional Accountants (IESBA Code) that are relevant to our audit of the financial statements in Fiji, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Other information

Members and management are responsible for the other information. The other information comprises the information included in the Secretariat's Annual Report for the year ended 31 December 2022 (but does not include the financial statements and our auditor's report thereon).

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard, except that not all other information was available to us at the date of our signing.

Responsibilities of Members and Management for the Financial Statements

Members and management are responsible for the preparation and fair presentation of the financial statements in accordance with IPSAS and for such internal control as the members and management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the members and management are responsible for assessing the Secretariat's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the members and management either intend to liquidate the Secretariat or to cease operations, or have no realistic alternative but to do so.

The members and management are responsible for overseeing the Secretariat's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with the ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, design and perform audit procedures responsive to those risks, and obtain
 audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
 not detecting a material misstatement resulting from fraud is higher than for one resulting from
 error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
 override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Secretariat's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the members and management.

- Conclude on the appropriateness of the members and managements use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Secretariat's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Secretariat to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with members and management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Restriction on Use

This report is made solely to the Secretariat's Members, as a body. Our audit work has been undertaken so that we might state to the Members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Secretariat and the Members as a body, for our audit work, for this report, or for the opinions we have formed.

1) Reporting entity

The principal activity of the Pacific Islands Forum Secretariat ("the Secretariat") is to facilitate, develop and maintain cooperation and consultation between member governments on economic development, trade, energy, legal, political, climate change, security and such other matters as the Pacific Islands Forum may direct. There were no significant changes in this activity during the year.

The Pacific Islands Forum Secretariat is an international organisation, domiciled in Fiji and has diplomatic status in Fiji. The address of the Secretariat's registered office is Ratu Sukuna Road, Suva. It was established by treaty, signed, and ratified by the governments of the eighteen member countries.

2) Statement of significant accounting policies

The significant policies, which have been adopted in the preparation of these financial statements, are noted below.

a) Statement of compliance

The financial statements of the Secretariat have been prepared in accordance with and comply with International Public Sector Accounting Standards 33 ("IPSAS 33"). The financial statements partially comply with accrual basis International Public Sector Accounting Standards ("IPSAS"). The standard IPSAS 33 allows the first-time adopter to apply transitional exemptions and provisions that impact fair presentation. The Standard also allows for a three-year transitional relief period for the recognition and measurement of assets, liabilities, revenue and/or expenditure. The Secretariat is in its second year of transitioning to full IPSAS.

There are new or amended standards or interpretations that have been released but not yet effective for the year ending on December 31, 2022, that would significantly affect the Secretariat's financial statements. The Secretariat notes the following new standards that are in effect from the year 2023:

| IPSAS Standards IPSAS 41– Financial Instruments | Key Requirements The standard partly replaces existing guidance in IPSAS 29. IPSAS 41 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment of financial assets. The existing guidance on recognition and derecognition of financial instruments in IPSAS 29 has been carried forward to IPSAS 41. | Effective Date Periods beginning on or after 1 January 2023 |
|---|--|---|
| Improvements to IPSAS, 2019 | Improvements to IPSAS, 2019 deals with non-substantive changes to IPSAS through a collection of amendments which are unrelated. | Periods beginning on or after 1 January 2023 |

The Secretariat recognises the revenue from contribution from members, voluntary contributions, and donor funds in these transitional IPSAS financial statements based on IFRS 15 Revenue from contracts with customer. For revenue recognition, refer Note 2 (j).

2) Statement of significant accounting policies (continued)

a) Statement of compliance (continued)

The financial statements were authorised for issue by the Secretary General on 25 April 2023.

b) New Accounting Standards adopted by the Secretariat

In its second year of adopting International Public Sector Accounting Standards (IPSAS), the Secretariat has successfully complied with IPSAS 17 on Property, Plant, and Equipment in the year 2022. This implementation involved accounting treatment in moving the capital reserve from equity to liabilities, in accordance with IPSAS 1 on Presentation of Financial Statements, which requires proper categorization of financial items. As a result, the Secretariat's Capital Reserve has decreased by \$2.1 million, which is reflected in the statement of changes in equity and the statement of financial position. The \$2.1 million has been recognized as deferred income under current liability.

c) Basis of measurement

- 1. These financial statements are prepared on an accrual basis of accounting in accordance with IPSAS.
- 2. The Secretariat applies the historical cost basis and does not take into account changes in money values except where stated otherwise.

d) Fund accounting

The Secretariat has adopted fund accounting system for individual grants or donations for specified projects. Accordingly, it is necessary to establish a separate fund to record the amount received, expenditure incurred and the net balance of the funds available to be carried forward into the next financial period. The identification of funds is maintained within the accounting system thus providing the necessary control to ensure that each fund is used only for the purpose for which funds are received.

e) Functional and presentation currency

The financial statements are presented in Fiji dollars, which is the organisation's functional and presentation currency. Except as otherwise indicated, financial information presented in Fiji dollars has been rounded to the nearest dollar.

2) Statement of significant accounting policies (continued)

f) Effect of year two adoption of IPSAS 33

The Secretariat in its transitionary phase aims to comply with the requirements of IPSAS 23, revenue from non-exchange transaction and IPSAS 9, revenue from exchange transaction in relation to the recognition of revenue from contribution from members, voluntary contributions, and donor funds in the course of 2023 financial year where the relevant accounting policies will be updated also.

IPSAS 18 Segment Reporting has been successfully implemented in the initial year followed by more compliance in terms of disclosure for carrying amounts of assets and liabilities. This is reflected in the financial statements and disclosures.

The Secretariat has not clearly stated its financial interest in the foreign offices as per IPSAS 35 consolidated financial statement. Currently, the PTI offices located in New Zealand, Australia, Geneva, and China maintain separate audited financial statements, and are not consolidated with the Secretariat's financial statements. However, the Secretariat intends to adhere to IPSAS 35 requirements, in particular, addressing the issue of control for the foreign offices in the 2023 financial year.

The Secretariat takes advantage of the following transitional exemptions in IPSAS 33 that affects the fair presentation of the financial statements and intends to comply with this fully in the transitional three-year period.

- IPSAS 12 Inventories
- IPSAS 17 Property, Plant and Equipment
- IPSAS 19 Provisions, Contingent Liabilities and Contingent Assets
- IPSAS 16 Investment Property
- IPSAS 31 Intangible Asset
- IPSAS 41 Financial Instruments

g) Use of estimates and judgements

The preparation of the financial statements in conformity with IPSAS 33 requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

Judgements

Classification of non-financial assets as cash generating assets or non-cash-generating assets

The Secretariat classifies non-financial assets into two categories for the purpose of assessing impairment indicators and impairment testing:

1. Cash-generating assets: These are assets whose primary objective is to generate commercial return. Examples of cash-generating assets may include investment properties, rental properties, or other assets held for the purpose of earning rental income or other commercial returns.

2) Statement of significant accounting policies (continued)

g) Use of estimates and judgements (continued)

2. Non-cash-generating assets: These are assets that do not have the primary objective of generating commercial return. Examples of non-cash-generating assets may include property, plant, and equipment used for internal purposes, intangible assets such as trademarks or patents, and other non-financial assets held for operational purposes.

By classifying assets in this way, the Secretariat may be able to better assess impairment indicators and impairment testing for these assets, which could ultimately help to ensure that they are being used effectively and efficiently.

The Secretariat classifies all property, plant, and equipment held by the organization as non-cash-generating assets, even if they generate some form of rental revenue or other cash flows for the Secretariat. This classification recognizes that some assets generate revenue but not enough for a commercial return, and their primary purpose is to support the Secretariat's operations. By categorizing them as non-cash-generating, the Secretariat can assess their value and potential impairment to ensure effective resource management. This is in accordance with IPSAS 16 Investment Property.

The Secretariat does not hold cash-generating assets. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Useful lives and residual value of property, plant and equipment: Note 2(i) Property, plant and equipment
- Impairment of receivables: Note 2(p) Receivables
- Impairment of cash and non-cash generating assets: Note 2(v) Impairment of non-financial assets.

h) Foreign currency transactions

Transactions in foreign currencies are translated into Fiji dollars at the mid-point of the sell rate and inward TT rate at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into Fiji dollars at the exchange rate at that date. Non-monetary items in foreign currency measured at historical cost are translated at the exchange rates in effect at the date of transaction. The foreign currency gains or losses on translation are recognised in the statement of financial performance.

2) Statement of significant accounting policies (continued)

i) Property, plant and equipment

Recognition and measurement

Property, plant and equipment purchased from the General Fund are stated at cost less accumulated depreciation and any impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalised borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired in a non-exchange transaction for nil or nominal consideration the asset is initially measured at its fair value.

Property, plant and equipment purchased from the Trust Fund are capitalized to assets and corresponding entry recognised as Income received in advance – Trust Fund.

The Secretariat has derecognised the capital reserve from its equity as an appropriate accounting treatment to better align with the recognition stipulated in IPSAS 17 and IPSAS 23 for assets and under revenue from exchange transaction.

All fixed assets additions are at VAT inclusive prices.

When assets are disposed of, the cost and accumulated depreciation are taken out of the accounts, and any gains or losses resulting from the disposal are recorded in the statement of financial performance. If the asset was donated or previously expensed in the contribution received in advance - Trust fund, a transfer is made from the Income Received in advance - Trust Fund that matches the net cost of the disposed assets. The gains or losses from the sale of donated or trust-funded assets are recorded as income or expenditure in the General Fund statement of surplus or deficit. The gains and losses on disposal of property, plant, and equipment are calculated by comparing the sale proceeds with the carrying amount of the asset.

Subsequent expenditure

If it is likely that a replaced part of a property, plant, or equipment will bring economic benefits to the Secretariat in the future, and the cost can be accurately measured, then the cost of replacement is included in the carrying amount of the asset. However, the cost of routine maintenance and servicing of plant and equipment is recognized in the statement of financial performance as it is incurred.

For the Year Ended 31 December 2022

2) Statement of significant accounting policies (continued)

i) Property, plant and equipment (continued)

Depreciation

To ensure neutrality of donated assets and assets previously expensed in Contributions Received in Advance – Trust Fund (refer note 16), a transfer is made from the Capital Reserve – benefit realised from donated/trust fund assets – that exactly offsets the depreciation of those assets.

Depreciation is provided on a straight-line basis on all property, plant and equipment at rates calculated to allocate the assets' cost or valuation less estimated residual value, over their estimated useful lives.

Major depreciation periods are:

Buildings40 yearsEquipment3-5 yearsFurniture and fittings3-5 yearsMotor vehicles4 yearsComputer Software10%

Depreciation methods, useful lives and residual values are reviewed at each financial yearend and adjusted if appropriate.

j) Revenue recognition

The Secretariat recognises the revenue from contribution from members, voluntary contributions, and donor funds in these transitional IPSAS financial statements based on IFRS 15 Revenue from contracts with customer.

Revenue is measured based on the consideration specified in a contract with a customer. The Secretariat recognises revenue when it transfers control over a product or service to a customer. Revenue is presented net of value added tax, rebates, and discounts.

Revenue is recognised in the financial statements for the major activities as follows:

2) Statement of significant accounting policies (continued)

j) Revenue recognition (continued)

| Revenue type | Nature, timing of satisfaction of performance obligations and significant payment terms |
|------------------------------|---|
| Contribution from members | This represents contribution received from the member countries. These funds are used by the Secretariat in delivering on its principal activities. Contributions from members are recognised on an annual accrual basis and the performance obligations are satisfied over time. Revenue is measured at the transaction price (membership contributions) agreed under the membership agreement. |
| Interest income | Interest earned during the financial year for the Term Deposit investment held with ANZ and Westpac at market interest rates. This is recognised as interest income for the Secretariat. |
| Deferred Income | This relates to Trust Fund donated assets that is recognised is deferred Income and amortized over the project time period. |
| Recoveries income | This relates to the overhead recoveries which are recognised as income in the General Fund statement of profit or loss and an expense in Contributions Received in advance – Trust Fund. Recoveries income is recognised over time as the projects are carried out and the performance obligations are satisfied. |
| | Revenue is measured at the fixed transaction price (overhead rate as per the Secretariat's management's discretion). |
| Administration fees received | This relates to the fees received by the Secretariat for administering projects, which are recognised as income in the General Fund statement of profit or loss and an expense in Contributions Received in advance – Trust Fund (note 18). Administration fees are recognised over time as the performance obligation are satisfied. |
| | Revenue is measured at the transaction price (administration fees rates) as agreed under the donor agreements. |
| Other income | Other income represents income earned from voluntary contribution from member countries, rental of premises, donor reimbursements, hire of conferences, gain/loss from disposal of property, plant and equipment and other miscellaneous income. |
| | Other income is recognised on receipt except where a department of the Secretariat has arranged for a Secretariat's invoice to be raised to a third party; the revenue associated with these invoices is recognised when the goods/services have been provided. |
| | Revenue is measured at the transaction prices (voluntary contributions, rental rates, and prices) agreed under the membership agreements, lease agreements and the Secretariat's price manual respectively. Payment terms is 30 days. |

For the Year Ended 31 December 2022

2) Statement of significant accounting policies (continued)

j) Revenue recognition (continued)

| Donor funds | General Fund Revenue is measured at the transaction prices (donor grants) agreed under the donor agreements. |
|-------------|---|
| | Trust Fund Donor funds received with specific end purpose are recognised as revenue when the conditions attached to the funding have been met and performance obligation satisfied. Until those conditions are met, receipts of donor funding are accounted for as "Contributions Received in Advance" and recognised as a liability. Donor funds expenses incurred are recognised in statement of profit or loss on a systematic basis in the same periods in which the income is recognised. |

k) Expenses

Expenses are recognised as and when the goods or services are delivered and accepted by the Secretariat.

For Project expenses, where the Secretariat is the direct implementer, expenses are recognised when goods and services have been received. Where the Secretariat is the principal implementer through sub-recipients, advances to these organisations are recognised as expenses only on receipt of supporting documentation confirming acceptable expenditure, and the receipt of the related goods/services as per donor requirements.

l) Income tax

The Secretariat is exempt from income tax by virtue of Article XI of the Agreement Establishing the Secretariat, which was signed and ratified by the Fiji Government, and Section 6(1) of the Diplomatic Privileges and Immunities Act 1971.

m) Financial assets at amortised costs

The Secretariat's financial assets measured at amortised cost consist of cash and cash equivalents, term deposits with original terms greater than three months, receivables from members and other receivables.

Financial assets at amortised costs are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by any impairment losses. Interest income, gains/(losses) arising from derecognition, foreign exchange gains/(losses) and impairment losses are recognised in the statement of financial performance.

The Secretariat assesses on a forward-looking basis the expected credit loss associated with its financial assets measured at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For the Year Ended 31 December 2022

2) Statement of significant accounting policies (continued)

n) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at bank, calls and short-term deposits with original terms of three months or less.

Bank overdrafts that are repayable on demand and form an integral part of the Secretariat's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

o) Other financial asset at amortised cost

Other financials asset at amortised cost comprises of term deposits with original terms greater than three months and are measured at amortised cost using the effective interest method less the allowance for impairment losses.

p) Receivables

Receivables such as assessed member contributions are recorded at their fair value, and then they are valued using the effective interest method and adjusted for impairment losses.

Receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, significant difficulties of the debtor and default or delinquency in payments.

Impairment losses on receivables are presented as net impairment losses in the statement of financial performance. To determine the impairment loses, refer Note 2(p) and note (12). Subsequent recoveries of amounts previously written off are credited against same line item.

q) Other receivables

Other receivables including prepayments, interest receivable, sundry debtors and recoverable expenditure are initially recognised at fair value.

r) Financial liabilities at amortised costs

Financial liabilities at amortised cost consist of trade and other payables.

Trade and other payables are subsequently carried at amortised cost and due to their short-term nature, they are not discounted.

s) Employee entitlements

Short-term benefits

Short-term employee benefits comprising of annual leave and entitlement to the Fiji National Provident Fund are measured on an undiscounted basis and are expensed as the related service is provided.

t) Payables

Commitments at year end include commitments for goods supplied and services rendered during the year, and any other commitments entered into, or liability incurred but not discharged, at the close of the year.

For the Year Ended 31 December 2022

2) Statement of significant accounting policies (continued)

u) Contributions received in Advance

Contributions received in advance represent contributions received for future periods specified in donor contribution agreements. The funds are only recognised as revenue and applied to the earmarked activities in the specified future period. Project funds unexpended represent funds received from donors that will be recognised as revenue in future years when conditions are met or the revenue is earned, which is generally on utilisation of funds for project activities.

v) Impairment of non-financial assets

Impairment of non-cash generating assets

The non-financial assets held by the Secretariat are categorized as non-cash generating assets. The Secretariat evaluates these assets for any signs of impairment at every reporting interval. If there are indications of impairment, the Secretariat estimates the asset's recoverable service amount, which is the higher value between the fair value less costs to sell and the value in use. If the carrying amount of the asset surpasses its recoverable service amount, it is considered to be impaired and is depreciated to its recoverable service amount.

In assessing the value in use, the Secretariat employs the depreciation replacement cost approach. This approach determines the present value of the remaining service potential of the asset as the depreciated replacement cost of the asset. The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated based on this cost to reflect the asset's already consumed or expired service potential.

The fair value less cost to sell is determined by the price of the asset in a binding agreement in an arm's length transaction adjusted for incremental costs that would directly relate to the asset's disposal. If there is no binding agreement, but the asset is traded on an active market, the asset's fair value less cost to sell is the market price less the cost of disposal. If there is no binding sale agreement or active market for an asset, the Secretariat determines the asset's fair value less cost to sell based on the best available information.

All impairment losses are recognised in the statement of financial performance.

w) General Fund Reserve

The General Fund keeps track of the surplus or deficit that arises from the Primary Budget's revenue and expenditure. It consists of the accumulated operating surpluses, gains realized from foreign currency fluctuations as of the balance date, and any specific funding sources as directed by the Forum Officials Committee.

x) Special Fund Reserve

A Special Fund Reserve was setup in 2019 to quarantine net administrative fees or net management fees received on or after 1 January 2019 after offsetting project costs incurred directly in relation to administering of funds. These direct costs include the positions of staff directly required to carry out Extra Budget work in Corporate Services and will include any other cost of management of Trust Fund deemed appropriate by the Secretariat. The net administrative fee or net management fees would be carried into the General Fund Reserve and then transferred to Special Fund Reserves

2) Statement of significant accounting policies (continued)

y) Budget information

The Secretariat budget figures are approved by Forum Officials Committee. The budget figures have been prepared using the same accounting policies as those used in the preparation of these transitional financial statements under IPSAS 1. Explanatory comments for overall differences between budget and actual amounts are provided in Note 20 to the financial statements.

The Secretariat adopts a fund accounting system to manage grants or donations for specific projects. The system tracks the difference between the amount of money received and the expenses incurred for each grant or donation and calculates the net balance of available funds to be carried over into the next financial period. A detailed breakdown of the expenses is also provided in Note 6.

The identification of funds is maintained within the accounting system thus providing the necessary control to ensure that each fund is used only for the purpose for which funds are received.

20) Budget Commentary

The Secretariat's budget figures are approved by the Forum Officials Committee. The Secretariat has two primary reportable segments, namely the General Fund segment and the Trust Fund segment. The budget for the two segments were prepared using the same accounting policies as those used in the preparation of these financial statements.

Under the General Fund segment, total income was higher than budget due to contributions by administration fee collected from project activities and interest income, both exceeded budgets. Expenditure was higher than the budgeted amount, due to increased activities such as travel expenses for staff and participants, facilities costs, and other operational costs. Below budget results were recorded for payroll costs, training, and recoveries costs. For the General Fund, a surplus of \$1,879,503 was recorded for the year.

The Trust Fund income was higher than the budget as increased advance donor contributions were received during the year 2022. Trust Fund actual expenditures, on the other hand, were lower than budget mainly from lesser operating and administration costs recorded for the year. An overall deficit of \$4,266,072 was recorded for the Trust Fund for the year.

The net consolidated position recorded for the year was a deficit of \$2,386,569.

21) Commitments and contingent liabilities

a) Contingent liabilities

i) Project ineligible expenditure

A number of European Development Fund (EDF) 10 and EDF 11 projects funded by the European Union were subjected to EU audits in 2021 which continued into 2022. Following extensive discussions and the provision of additional supporting documentation to the EU during the year, contingent ineligible expenditures were significantly reduced from the 2021 reported amount of \$4,528,618 to \$469,568. Of this amount, \$342,820 were uncontested and booked as provision for project ineligible expenditures. The remaining \$126,749 considered contestable is being disclosed as current contingent liabilities. Additional supporting documentation is currently being retrieved to reduce the existing exposure for ineligible expenses.

As of year-end, contingent liabilities as such stand at \$126,749 or EUR53,564 (2021: \$4,528,618 or EUR1,887,981).

b) Capital expenditure commitments

Expenditure approved and committed amounted to \$922,815 as at 31 December 2022

| Capital Expenditure | Commitment |
|---------------------------|------------|
| | FJD |
| Hardware & Infrastructure | 226,966 |
| Furniture & Equipment | 307,199 |
| Building & Grounds | 388,650 |
| Total | 922,815 |

22) Related party

a) Transactions with related parties

The Secretariat's key management personnel are the only related party of the Secretariat.

All related party transactions that the Secretariat entered into during the year occurred within a normal client/supplier relationship and under terms equivalent to those that prevail in arm's length transactions in similar circumstances.

b) Key management personnel

During the year the following persons were the executives identified as key management personnel with the greatest authority and responsibility for planning, directing, and controlling the activities of the Secretariat:

Henry Puna Secretary General

Filimon Manoni Deputy Secretary General

Apaitia Veiogo Director Operations

Sione Tekiteki Director Governance and Engagement

Irvine Paki Ormsby Director Policy

Zarak Khan Director Programmes and Initiatives

The aggregate compensation of the key management personnel comprises of short-term benefits only and is set out below:

| | 2022 FJD | 2021 FJD |
|---|-------------|-------------|
| Short-term benefits | \$2,052,877 | \$2,432,738 |
| Number of persons on a full-time equivalent basis | 6 | 7 |

23) Risk Management Policies

Financial risk management objective and policies

The Secretariat's principal financial instruments comprise of cash, short-term deposits, and receivables. The main purpose of these financial instruments is to adequately fund the Secretariat's operations.

As a result of the Secretariat's operations and sources of finance, it is exposed to exchange rate risk, credit risk, interest rate risk and liquidity risk.

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset and financial liability are disclosed in Note 2 to the financial statements.

23) Risk Management Policies (continued)

(i) Foreign exchange risk

Exchange rate risk refers to the potential loss that may arise due to fluctuations in exchange rates against the Fiji dollar. The Secretariat receives funding from multiple member countries and donors in foreign currencies, which it then converts into Fiji dollars for transactions. This exposes the Secretariat to foreign exchange risk. To mitigate this risk, the Secretariat operates several foreign currency bank accounts (such as Australian, New Zealand, United States and Eur dollar accounts) and conducts transactions in these currencies when necessary.

The Secretariat's exposure to foreign currency risk was as follows based on notional amounts:

| 2022 | |
|-----------|-----|
| 408,018 | AUD |
| 389,455 | NZD |
| 4,880,858 | USD |
| 3,532,779 | EUR |

The following significant exchange rates applied during the year:

| | Reporting date rate |
|-----|---------------------|
| | 2022 |
| AUD | 0.6643 |
| NZD | 0.7094 |
| USD | 0.4511 |
| EUR | 0.4226 |

Sensitivity analysis:

A 10 percent strengthening or weakening of the foreign currency against the Fiji dollar as at 31 December 2022 would have increased or decreased respectively equity and income by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2021.

| | AU | \mathbf{D} | N | ZD | U | SD | \mathbf{E} | UR | |
|------|--------|--------------|--------|---------------|-----------|--------|--------------|--------|---|
| | Equity | Income | Equity | Income | Equity | Income | Equity | Income | |
| 2022 | 61 | 61 | 55 | 55 | 1,082 | 1,082 | 836 | 836 | - |
| | | | | Effect in FJI | O \$000's | | | | |
| | AU | D | N | ZD | U | SD | \mathbf{E} | UR | |
| | Equity | Income | Equity | Income | Equity | Income | Equity | Income | |
| 2021 | 376 | 376 | 313 | 313 | 992 | 992 | 1168 | 1168 | |

Effect in FJD \$000's

(ii) Forward Contract Policy

The Secretariat established a Forward Contracts Policy and Procedures in 2015 as a tool for managing foreign currency risks and it is designed to control risks associated with entering Forward Contract arrangement.

All the forward contracts have been settled (redeemed) to meet the operational cashflow requirements and a net gain of \$48,839 was recorded for the month of May 2022.

The Secretariat will continue to seek opportunities to enter forward contracts when forward rates are favorable.

(iii) Credit risk

Credit risk pertains to the possibility of incurring losses due to Members' non-compliance with their agreed-upon contributions. The Secretariat employs ongoing monitoring of receivable balances to mitigate any potential exposure to default, rendering it an insignificant risk.

As for fixed-rate financial assets and liabilities, the Secretariat does not recognize their fair value through surplus or deficit in its accounting. Hence, any alterations in interest rates during the reporting period would not impact the comprehensive income statement. Additionally, financial assets and liabilities are carried at amortized costs in the balance sheet, which is regarded as a reasonable approximation of their fair value.

The maximum exposure to credit risk at balance date to recognized financial assets, is the carrying amount, net of any provisions for impairment of these assets, as disclosed in the statement of financial position and notes to the financial statements. The Secretariat applies the IFRS 9 simplified approach to measuring expected credit losses for receivables from members.

The Secretariat has classified receivables from members into groups based on shared risk characteristics and days past due, to estimate the anticipated credit losses. They use the "net flow rate" model, which considers the likelihood of trade receivables moving from current payment status to delinquency buckets before being written off. The loss rates used are based on historical credit losses incurred within the current year and are adjusted to reflect current and future conditions based on macroeconomic factors and the Secretariat's internal assessment of receivables from members throughout their expected lifetimes.

Movement in the allowance for impairment losses on membership receivable and sundry debtors is summarized as follows:

| | 2022 | 2021 |
|--|-------------|-------------|
| | FJD | FJD |
| Balance at beginning of year | (1,551,806) | (323,844) |
| Impairment losses recognised – membership receivable | - | (1,227,962) |
| Impairment losses recovered – membership receivable | 1,385,382 | - |
| Impairment losses recognised – sundry debtors | - | - |
| Balance at end of year | (166,424) | (1,551,806) |
| | | |

2021

2022

iii) Credit risk (continued)

The following table provides analysis about the exposure to credit risk and expected credit losses for trade receivables as at 31 December 2022:

| | Gross | |
|--------------------------------|----------|----------------|
| | carrying | |
| | amount | Loss allowance |
| _ | \$ | \$ |
| Membership receivable | | |
| Accounts individually assessed | 309,669 | 166,424 |
| Total | 309,669 | 166,424 |

While cash and cash equivalents and other financial asset at amortised cost are also subject to the impairment requirements of IFRS 9, the impairment loss is deemed immaterial due to short term maturities and/or low expected credit risks and a lack of delinquency.

iv) Interest rate risk

The Secretariat's held to maturity investments are generally at fixed interest rates, and accordingly exposure to interest rate risk is not considered material.

v) Liquidity risk

Liquidity risk pertains to the potential inability of the Secretariat to fulfill its financial commitments as they arise. The Secretariat has adopted a strategy to mitigate risk by ensuring it has sufficient liquidity to fulfill its obligations in a timely manner, under regular and pressured circumstances. This strategy aims to avoid detrimental losses or negative effects on the Secretariat's reputation while maintaining its financial standing.

Prudent liquidity risk management implies maintaining sufficient cash, marketable securities, and the availability of funding through an adequate amount of committed credit facilities.

The Secretariat's financial liabilities are all payable within the next 12 months. The Secretariat has minimal exposure to liquidity risk.

24) Events subsequent to year end

A total of \$941,000 was disbursed from the provision made for ineligible expenses in the projects funded by the European Development Fund (EDF)10, namely the "Pacific Integration Technical Assistance Programme" and the "Ratification and Implementation of Human Rights Treaties Project".

A special Leaders Retreat was held on 24 February 2023 which discussed among other things, their commitment to uphold the Suva Agreement, where the Government of the Republic of Kiribati became the final signatory in accordance with the Denarau Addendum to the Suva Agreement.

24) Events subsequent to year end (continued)

Specific items agreed under the Suva Agreement included the establishment of a new Sub-Regional office, the establishment of an office of the Pacific Oceans Commissioner, the creation of a few positions including a second Deputy Secretary General, a Sub-Regional Director, Adviser and a KRA Assistant.

The Suva Agreement was borne out of the political commitment to the reform elements for the Pacific Islands Forum consistent with the spirit of the Political dialogue Mechanism on 7 June 2022.

25) Segment information

For management purposes, the Secretariat is broadly organised into units based on the nature of the services they provide. The Secretariat has two primary reportable segments:

a) General Fund Segment

This Secretariat utilises the funds provided through Assessed Contributions, Voluntary Contributions and Other Income to carry out its core functions and general (operational) activities as set out in the Agreement, and as prioritised for the period under the Strategic Plan.

- The General Fund segment, which amounts to a surplus of \$1,879,503.

b) Trust Fund Segment

The Secretariat performs the role of a trustee in maintaining the trust funds used to account for either donor or member contributions received in advance. The Secretariat maintains two funds to record these contributions. The contribution in advance comprises of work programme funds (subject to the respective funding agreements) which the Secretariat performs the role of a trustee for on behalf of the donors. The voluntary contributions provide for the Secretariat's role as a trustee on behalf of the members as these funds are provided by the members in support of the General Fund.

- The Trust Fund segment, which amounts to a deficit of \$4,266,072.

The Secretariat does not monitor segments geographically.

Management monitors the operating results of its units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on non-financial metrics and the segment's operating surplus or deficit measured consistently with the accounting policies applied in the financial statements.

26) Segment Reporting

| | | Primary Budget | Trust Fund | Consolidated | Primary Budget | Trust Fund | Consolidated |
